Description

Full Color Giclee Panels & Inserts (pronounced "zheeclay") is the term for high quality reproductions of art using high-resolution inkjet printers. We can reproduce your images on standalone panels or as inserts into your architectural plaques. Using UV-cured, non-elastic inks at up to 1200 dpi resolution, we can print your image as an accent for any of your recognition, wayfinding or signage needs. The reproduced image will show any imperfections found in the original image. Complies with ADA. 1/8" D
