An environmentally responsible product!

By using **100% re-cycled cotton scraps** to make our paper, we're helping to conserve the world's forests. No trees are cut down to produce this fine linen **seed-filled paper**! Hand made, the paper dissolves into soil as the flowers grow and can be planted year round indoors. Unlike hard to grow wildflowers, we use flower seeds that will sprout in a week or less, and produce beautiful blooms in no time!

When sending a message of recycling and waste awareness amongst your employees, staff, students or personnel, it's key that the message be followed up with reinforcing motivators. Amongst these motivators are hundreds of recycling-related items that will capture attention, reinforce your goals and inform your audience.

We have a large variety of pens, mousepads, notepads, mugs, key rings, t-shirts, stress balls, magnets, info wheels and more that convey your message with class and clarity. Don't see what you need?

**Call us for ideas! Remember, our point is getting yours across!**
