## Description

---

All polyurethane stress products are manufactured by hand. No two are exactly the same (some people might say this adds to their uniqueness and collectability). Color, density and size will vary slightly; consequently, we cannot guarantee a uniformly consistent imprint. Some distortion is unavoidable. Large solid imprints and reverse copy may break up somewhat. However, rest assured that we will strive to give you the best possible imprint. 2 3/4" W x 2 3/4" H x 1 3/4" D
