## Description

---

The Lancaster backpack tote is made from a durable 2-tone heathered grey material and serves two functions in one: with padded adjustable shoulder straps you can carry it like a backpack or use the top carry handles and use it as a tote bag. A top-loading, zippered compartment reveals a padded 15.5" laptop pocket and a main compartment with organizer pockets. The large front file pocket has a snap button closure and the adjustable seatbelt material side straps keep this bag's profile nice and sl. Complies with Prop 65. 12 3/8" W x 16 1/4" H x 4" D
