Description

This (709 MI) reusable BPA-free golf ball-shaped water bottle is made of light-weight easy-to-fold, bendable plastic. That means bottle can be collapsed flat and easily stored away when empty and stands like any other bottle when full. Designed for use with cool liquids only. It features a unique golf ball stock-art on front, clear panel back. Not microwaveable or dishwasher safe. United States Design Patent No.: US D699,796 S. Production times may vary due to imprint method. Complies with Prop 65. 7" W x 9" H x 3.5" D
