Description

New Cloisonne pins (also called imitation hard enamel) are die-struck and then filled with a high-tech resin to simulate the look of a traditional Cloisonne pin. With this process, we can match PMS colors. Each pin is hand finished, plated and polished resulting in a glossy smooth jewelry quality finish. Complies with Prop 65. 1 1/2" Diameter x 1 1/2" L x 1 1/2" W

Additional Information
