Description

Hand out a promo product that reflects well on your campaign! Our eco-friendly, flashing LED safety reflector features a 3-mode LED: strobe, blinking and light. A battery blocker is inserted in this handy little flashlight/key tag. Product material is PS (body) and PP (clip). Customize with your pad printed or silkscreened company name or logo in the ample imprint space and create a perfect promotional plug for almost any business with dark parking lots! Complies with Prop 65.
